### Essay on Beowulf: Write It Successfully and Be the Best

Beowulf is a common subject area for academic writing, custom essay, and custom term paper for students. Being a heroic character, students would find writing an essay on Beowulf very interesting. This epic character shows immense courage and strength mixed with fighting skills and responsibility. These are the main themes of focus that writing an essay on Beowulf should narrow to. Most of the aspects about this character are emulative especially among young students and writers.

- The character inspires everyone with his boldness, fighting spirit, endurance, and rise to fame. Writing an essay on Beowulf can also focus on overcoming fears in life by merely facing them with confidence. Despite the fact that some battles can be hard to win, facing challenges in life with confidence can help people live a life of heroism.
- It is possible to feel inspired from an essay on Beowulf to work ones way to the top of something by overcoming every challenge that presents itself.
- Another focus can be on the struggle between evil and good. These two forces are always in a constant fight. Whenever evil arises, good has to intervene to bring it down. The paper on Beowulf could be very symbolic in the lives of the writer or anyone who reads them. The events could symbolize a sense of moral evil that people have to face every day. The struggle to

## Summary<sup>1</sup>

The summary has to give a picture of the research that has been done. The text is scientifically sound, but has to be comprehensible for readers that are not familiar with the research. The summary has the format of an abstract. To include the summary in the thesis/research master thesis, there is no need for a separate permission. The assessment of the thesis/research master thesis will give a point for the entire work, including the summary. The summary is required for all students from the January 2012 examination period.

The summary is written in font size 10 and line spacing 1.5. The summary consists of 300 to 500 words (maximum one page). The summary is put in front of the thesis/research master thesis, on the right page. The opposite left page is left blank. Concerning the format: do not use bold or under-line; italic is allowed.

The summary will be edited according to the format in the template "example of the summary". It states the name of the student, the title, the promoter, the examination period and the academic year. In case one or two co-promoters have supported the student in addition to the promoter, they will be mentioned.

Example of the summary:

First name, FAMILY NAME, Title. Subtitle.  
 Thesis/research master thesis presented to obtain the degree of Master ...  
 Examination period & year: (month) 201x  
 Promoter:  
 Co-promoter:

The summary normally also consists of:

- **Topic and purpose of the study:** the summary of a thesis/research master thesis starts with a brief introduction that situates the problem formulation and clarifies its importance. Depending on the topic, a typical example can be quoted in the introduction. One starts a new paragraph to differentiate between the introduction and the discussion.
- **Short outline of the used research methods and brief description of the results or type of results:** subsequently the research itself is described. This is the most extensive part of the summary. In this part you describe the matter the thesis/research master thesis is about, the exact problem formulation, the research method and the most important conclusions. This can be done by briefly describing the different chapters. You can start a new paragraph for every new chapter. If the type of research allows it, you can write a discussion that is not related to the classification in chapters. For this, try to use a coherent line of reasoning instead of listing isolated elements. Accurately describe the content of the thesis/research master thesis. Be brief but complete, without going into details. Do not mention effect sizes or references (except for when the reference is the basis for your thesis/research master thesis).
- **Conclusion or type of conclusions:** in a concluding paragraph the most important conclusions are described. A short recommendation or reflection can be done.

### We Should Not All Be Uniform!

Every day, millions of teenagers spend between six and eight hours in America's high schools. They sit at their desks, listen to their teachers, and do their school work. In some of these schools, however, they are also forced to dress in school uniforms. This restriction is really too much. In America's high schools, students should not be forced to wear uniforms because they take away a student's sense of individuality, they do not allow for self-expression, and they absolutely do not save families any money.

First of all, students should not wear uniforms because they take away a student's sense of individuality. Imagine this: 30 students sit in desks in a small classroom. Each student wears tan pants and a white shirt. They sit with their school books and papers in front of them. They all look exactly alike. Does this seem right? Of course not! We are all individuals! We are unique in many different ways. Why try to make all students look alike? This idea is supported by testimony from a 17-year-old student forced to wear uniforms. Her story was reported in *National Catholic Reporter* of March, 2002, and she said, "Everyone hated it. It completely killed any sense of individuality any one of us had. Everyone looked the same. It was sad to
